

End-of-Life Notification
February 3, 2011
PCN1019

Dear Valued Customer:

As part of our on-going product lifecycle management process, we have identified a product that will be transitioned to an "End-of-Life" status. This decision was based on our review of historical unit shipment volume and product revenue performance. Products targeted for end-of-life will be available for a last time buy purchase prior to being made obsolete. The product identified for inclusion into our Last Time Buy Program is the following Dial Pulse Counter and Hook Status Monitor IC

- M-959 14-pin plastic DIP

There is no direct replacement IC for this device.

Under the terms of the last time buy program, orders will be accepted for 8 weeks commencing with the date of this notice after which no additional orders will be accepted. Scheduled deliveries will be permitted within 3 months of the last time buy date. Thereafter, this product will be considered obsolete and no additional deliveries will be made.

Acceptance of last time buy orders is subject to product availability and at the discretion of Clare. Every effort will be made to fulfill these orders. Purchase orders for these products will be considered non-cancelable, non-returnable (NCNR). If you have any questions concerning this End-of-Life notification, please contact your Clare representative.

Regards,
Steve Andrezyk
Director of Marketing
